Dear Litania Hiring Team,

As a long-time freelance graphic designer and digital artist with a passion for creating unique, modern graphics, I was excited to learn of an open opportunity for a graphic designer at Litania. For the past decade, I have used Adobe Photoshop and Adobe Illustrator to design, edit and touch-up graphics for clients from all over the world. In addition, I also have extensive experience in design beyond a traditional scope in areas such as video editing, audio editing, web development and UI design- having earned a degree in Interface Design and Web Development and working in that discipline for over three years.

Despite being from New Jersey, I have had a deep connection with Champaign's niche dance sport culture for many years by attending semi-annual events at UIUC. Much of my personal graphic work is directly inspired by this, as well as drawing from the distinct "Sportsbrut" school of design. I am passionate about implementing these themes seen in current-decade sports marketing while maintaining a standout, professional quality. I wish to continue my journey in creating such content through designing professionally for Litania. Both my professional and personal work has prepared me for an opportunity as such, and I am eager to hear back from your hiring committee.

Sincerely,

**Spencer "CERiNG" Gunning**
